Dear Graduates of 1952:

Your Graduating Class marks a new half century in the history of St. Joseph College. The first fifty years were full of storms and calms, rough weather and smooth sailing, critical times and periods of slow, constant growth. What the second half century holds, only God knows.

At the present day, your school has reached a record enrollment; from 70 in 1901 it has jumped to 405 in 1952. The Jubilee Year 1951 brought a number of needed improvements to the College. The main entrance to the school was beautified; a parking space was cleared at the entrance; a white-marble statue of the Mother of Christ was erected in the school yard; a monumental drinking fountain now quenches the thirsty throats of our students; the playground was leveled and new athletic equipment added. A project for the beautification of the students' entrance is now being implemented. Your Graduating Class has therefore, witnessed the maximum enrollment and the maximum expansion of this institution; and you and all the students of St. Joseph's owe a special debt of gratitude to the friends and benefactors of the school who have made both this personnel and this material progress possible by their generous cooperation and aid.

You are now leaving your Alma Mater at the height of its growth and success. The reasons why your school has had this marvelous history, this uninterrupted existence despite wars and hard times, this constant adherence to a lofty ideal, lie in these three words: Jesus (an unshakable faith in the founder of Christianity), Mary (a filial love of His Virginal Mother), and Joseph (a child-like confidence in the intercession of His foster-father). Your education at S.J.C. will have meant as much to you as it has left J.M.J. engraven deep in your mind.

That J.M.J. be yours in time and in eternity is the sincere wish of
